

# SoonerCare 2011 Outpatient Behavioral Health Agency Master Provider Numbers and Individual Rendering Provider Information

# Upcoming changes in 2011 for OPBH agencies will be discussed:

- **10/01/2011:**
  - **Master Prior Authorization IDs**
  - **Rendering provider required on claims**  
**(Screen shots of the enrollment application included in this power point presentation)**
  - **New Vender for Prior Authorizations:**
    - OptumHealth.**
    - <http://www.optumhealthoklahoma.com>

# Who to call...

- **(800) 522-0114**
- **Claims** - Provider Services: **Option 1**
- **Contracts** - Provider Enrollment: **Option 5**

# Authorizations:

- The *new Master PA specialty code* will be added as a *secondary specialty* to one of the OPBH agency's current provider IDs.
- This ID will need to be used for *ALL* PA requests for the overall agency as a whole.

## *When this goes into effect:*

The different site numbers will not be available for generating prior authorizations.

The only number that will be available for PAs will be the **"Master PA ID"**.

# Master Prior Authorization ID –

- These ID #s will be automatically assigned by OHCA for all OPBH agencies.
- The agency does not need to do anything, but wait... for the Master ID to be assigned.
- Effective on 10/1/11, the Master PA ID will be added to the web based prior authorization system as the only choice for the OPBH agency to use.
- The site specific OPBH agency provider numbers will be removed as a choice from the web based prior authorization system.

# Master PA ID

- **Benefit:** Agencies with multiple sites will no longer have to identify how the procedure code group dollar cap is going to be split. Multiple prior authorizations numbers for each of these sites will not be needed.

# Claims:

- The site specific OPBH agency provider ID number will be required in the ‘billing information’ field, while the individual rendering provider NPI number will be required in the ‘rendering provider’ field.

# LBHPs in Private Practice and also work for an OPBH Agency

If you have an individual contract and report your payments to the IRS under your SS# and you work for an OPBH agency, you will need to have **two** OHCA provider ID numbers:

1. The private practice provider ID is set up as a **yes-biller ID**; and the
2. OPBH agency individual provider ID is set up as a **no-biller ID**.

**Important Point to Remember:** Yes-biller IDs can not be added to an OPBH agency's group. LBHPs with a Yes-biller ID will need to submit an application to obtain a no-biller ID.

# There are two ways to add individuals to your OPBH Agency Contract:

**Individual adds the agency:** The individual can add the agency when they are completing the individual application. The individual has the option to add multiple groups and to deselect a group when they discontinue employment;

**or**

**OPBH agency adds the individual:** After an individual has completed their individual enrollment application and they have been assigned an individual provider number, the agency can log on to the OHCA secure site and add them as a “member” of the “OPBH Agency group.”

# Important steps for successful individual provider enrollment:

- Use OHCA's fax cover sheet **ONLY**. Your fax will not be accepted unless this form is used.
- The fax cover sheet must be the top sheet.
- *NO* batch faxing. Each individual application must be faxed separately.
- You will get a letter when the application has been successfully processed.
- Notary is not required.
- Each application requires a new user ID and password. If you are going to enter multiple providers, a spread sheet would be helpful to keep track of the information.

## Other details regarding individual provider enrollment:

- It is estimated to take 5 to 10 business days to process the application once the fax has been received.
- The **faxed received date** of the required materials is **very important**.
- The application start date can be retroactive 30 days from the fax received date. For example, the fax date is March 1, 2011. You can have a start date for the individual provider of January 30, 2011.

## Other important points to note about the individual application:

- The individual provider number belongs to the individual.
- The individual provider number will be the same regardless of the location or if they work for different agencies.
- The individual needs to be able to access their application.
- The individual applications do not contain the OPBH agency's private information.

# Provider Q&A

- If there are 2 different rehab groups in one day lead by two different renders to a member (such as the case in intensive outpatient services for substance abuse services) will the claim pay?
  - Yes, it will not deny for duplicate.
- When it is time to renew a contract, how early can we do it?
  - Renewal letters are mailed out 75 days prior to the expiration date of your contract, and again at 45 days prior to the expiration date if the contract has not been updated.
  - If you log into Electronic Provider Enrollment (EPE), the renewal notification is displayed for providers 120 days prior to the expiration date.
- Will the rendering be required on claims submitted after 10/1/11 for dates of service that occurred *before* 10/1/11?
  - No, it will not be required for dates of service before 10/1 but it can be used after 10/1 if the rendering provider's effective date in the group covers the date of service on the claim. For example, if Red Rock bills a service performed by Provider A on 8/1/2011 but the claim is submitted after 10/1/2011 AND Provider A is a member of Red-Rock effective 7/1/2011. The claim can be submitted with either the rendering provider A or Red Rock Group as the rendering provider. However, if Provider A did not become a member of RED ROCK until 9/1/2011 then the claim would need to be filed with RED ROCK as both billing and rendering because the claim was for DOS of 8/1/2011.

# Provider Q&A

- If you add an individual with an existing individual SoonerCare provider # to your OPBH agency after 10/1/11, will they need to complete appendix A?
  - Yes (This is located on the provider enrollment page.)
- What happens if we fill out an application for an individual and they already have a provider number that exists in the system?
  - OHCA determines if a new location code needs to be issued or the pay-to information needs to be added to the existing number.
- If the license expires during the contract, you need to update or can you just wait to update the information on the renewal date?
  - Yes, the provider needs to update their license, prior to the license expiration date, each year. Provider needs to log into the secure site to update their license information.
- Can agencies call to obtain the individual's provider number if they have one, but they do not know it?
  - Yes, they can call to obtain the individual's number. They must have the individual's SSN in order to obtain this information.
