## Report Description:

National Outcome Measures (NOMs): <http://www.nationaloutcomemeasures.samhsa.gov/>

Domain: Crime and Criminal Justice

Outcome: Decreased Criminal Justice Involvement

Measure: Change in number of arrests in past 30 days from admission to discharge/level of care change

The information provided in this report reflects the number of discharges/level of care changes, rather than the number of individuals. For example, if a person is discharged five times during the selected time period, the number of discharges would be five. To be included in this report, at least one service must be reported after admission. Also, when an episode includes more than one service reported under multiple contract sources, the episode will be counted under each contract source, but will only be counted once under the 'All Contract Sources' or 'All Substance Abuse Contract Sources (PPMR)' report.

Please note there are two versions of this report. The versions are different because they either report change from admission to discharge/level of care change (typically for substance abuse programs), or from admission to last transaction (typically for long-term mental health programs).

## DEFINITIONS:

**Excluded:** Individuals are excluded from this measure for one or more of the following reasons:

- a. No arrest at admission
- b. Dependent or co-dependent (Primary Presenting Problem Codes: 745, 746, 747, 748, 749, 750, 751)
- c. Discharge type is code 68 (Death)
- d. Detox is excluded because number of arrests is for last 30 days (average length of stay for detox is less than 7 days)

**No change:** No change or increase in number of arrests reported from admission to discharge/level of care change. Increases were included with this category because only .5% (one half of one percent) reported an increase.

**Reduction:** Number of arrests was less at discharge/level of care change than at admission.

**Admission:** Individual begins treatment in a level of care.

**Discharge:** Individual leaves treatment at that agency.

**Level of Care Change:** Individual is moving from either detox, residential treatment, halfway house or outpatient to another level of care within an agency.

**Systemwide:** Represents all ODMHSAS-contracted and operated facilities which have that level of care and contract source.

**All Substance Abuse Contract Sources (PPMR):** Includes the following contract source codes: 02, 03, 17, 20, 21, 22, 23, 27, 29, 41, 44, 49, 54, 61 and 70. These contract sources are included in the Substance Abuse Provider Performance Management Report.

**All Contract Sources:** All contract sources which this agency reports.
