No Service in 180 Days Discharges Between 01/01/2007 and 12/31/2007

Printed Date: 2/5/2008 Data Last Updated on: 02/03/2008

## Report Description:

### Data Quality Measures (DQMs)

Measure: No Service in 180 Days Discharges (Discharge Type 92)

The information provided in this report reflects the number of discharges/level of care changes, rather than the number of individuals. For example, if a person is discharged five times during the selected time period, the number of discharges would be five. To be included in this report, at least one service must be reported after admission. Also, when an episode includes more than one service reported under multiple contract sources, the episode will be counted under each contract source, but will only be counted once under the 'All Contract Sources' or 'All Substance Abuse Contract Sources (PPMR)' report.

#### DEFINITIONS:

**Not 92:** Discharge type was submitted by provider and not auto-discharged by ODMHSAS.

**Type 92:** Provider did not submit discharge to ICIS in a timely manner. Discharge was added to ICIS by ODMHSAS.

**Discharge:** Individual leaves treatment at that agency.

**Systemwide:** Represents all ODMHSAS-contracted and operated facilities which have that level of care and contract source.

**All Substance Abuse Contract Sources (PPMR):** Includes the following contract source codes: 02, 03, 17, 20, 21, 22, 23, 27, 29, 41, 44, 49, 54, 61 and 70. These contract sources are included in the Substance Abuse Provider Performance Management Report.

**All Contract Sources:** All contract sources which this agency reports.

#### Notes:

Data for this report are only updated by ODMHSAS staff at intervals. If the "Data Last Updated on:" is more than two weeks past, please contact Mark A. Reynolds at mreynolds@odmhsas.org or (405) 522-3824.

**Transaction Type 40 (Level of Care Change) is excluded from this measure.**
