\*Notes:

- A. Percentage of discharged clients engaged in treatment--this agency's Engagement indicator score. Compare this score to the regional indicator value in Table 19d of the quarterly RPM report to determine this agency's relative performance level.  $A=B/C*100$ .
- B. Number engaged—the number of this agency's residential clients from each region who got follow-up each quarter.  $B=A*C*100$ .
- C. Number with an index encounter—the number of clients from each region who were discharged each quarter from this residential treatment facility.  $C=B/A*100$ .
- D. This agency's percent of the regional denominator—this agency's contribution to the regional (RPM) indicator by region and quarter.

\*Notes:

- A. Percentage of discharged clients engaged in treatment--this agency's Engagement indicator score. Compare this score to the regional indicator value in Table 19d of the quarterly RPM report to determine this agency's relative performance level.  $A=B/C*100$ .
- B. Number engaged—the number of this agency's residential clients from each region who got follow-up each quarter.  $B=A*C*100$ .
- C. Number with an index encounter—the number of clients from each region who were discharged each quarter from this residential treatment facility.  $C=B/A*100$ .
- D. This agency's percent of the regional denominator—this agency's contribution to the regional (RPM) indicator by region and quarter.
