Between 01/01/2007 and 12/31/2007 at (554) GRAND LAKE M.H.C.

Printed Date: 2/9/2008

Data Last Updated on: 02/03/2008

Report Description:

National Outcome Measures (NOMs): <http://www.nationaloutcomemeasures.samhsa.gov/>

Domain: Reduced Morbidity

Outcome: Decreased Symptomatology

Measure: Change in level of functioning, based on the Global Assessment of Functioning (GAF), from admission to last transaction or admission to discharge.

The information provided in this report reflects the number of discharges during the time period, plus the number of active individuals at the end of the period. To be included in this report, at least one service must be reported after admission and the level of care for the individual must be outpatient. If an individual receives service under Contract Source 01 and another Mental Health Contract Source (see list below), they will be reported in each group.

DEFINITIONS:

Excluded: Number of individuals with missing or invalid data.

Increase: GAF score is at least one point higher at last CDC/discharge than that at admission.

No change: No change in GAF score reported from admission to last CDC/discharge.

Admission: Individual begins an outpatient treatment episode.

Discharge: Individual leaves outpatient treatment at that agency.

All Mental Health Contract Sources: Includes the following contract sources: 01, 24, 25, 32, 39, 42, 43, 45, 47, 48, 50, 53, 55, 56, 57, 58, and 59).

Age Group: For active individuals, age is calculate at the end of the time period. For discharged individuals, age is calculated at discharge.

What is excluded from the analysis:

1. Non-outpatient services/individuals
2. Crisis Services
3. Persons discharged within three months of admission.
4. Persons with less than three non-crisis services.

For the report meeting on September 5th, what additional information or discussion should be included? We have a whole page.
