

Level of Functioning-Agency Ranking (1 Point Change)

Increased Level of Functioning (1 Pt.) from Admission to Discharge/Level of Care Change
Between 01/01/2007 and 12/31/2007

Printed Date: 2/5/2008

Data Last Updated on: 02/03/2008

Report Description:

National Outcome Measures (NOMs): <http://www.nationaloutcomemeasures.samhsa.gov/>

Domain: Reduced Morbidity

Outcome: Decreased Symptomatology

Measure: Change in level of functioning, based on the Global Assessment of Functioning (GAF), from admission to discharge/level of care change

The information provided in this report reflects the number of discharges/level of care changes, rather than the number of individuals. For example, if a person is discharged five times during the selected time period, the number of discharges would be five. To be included in this report, at least one service must be reported after admission. Also, when an episode includes more than one service reported under multiple contract sources, the episode will be counted under each contract source, but will only be counted once under the 'All Contract Sources' or 'All Substance Abuse Contract Sources (PPMR)' report.

Please note there are two versions of this report. The versions are different because they either report change from admission to discharge/level of care change (typically for substance abuse programs), or from admission to last transaction (typically for long-term mental health programs).

DEFINITIONS:

Excluded: Individuals are excluded from this measure for one or more of the following reasons:

- Dependent or co-dependent (Primary Presenting Problem Codes: 745, 746, 747, 748, 749, 750, 751)
- Discharge type is code 68 (Death)

Decrease: GAF score is at least one point lower at discharge/level of care change than at admission.

No change: No change in GAF score reported from admission to discharge/level of care change.

Increase: GAF score is at least one point higher at discharge/level of care change than that at admission.

Admission: Individual begins treatment in a level of care.

Discharge: Individual leaves treatment at that agency.

Level of Care Change: Individual is moving from either detox, residential treatment, halfway house or outpatient to another level of care within an agency.

Systemwide: Represents all ODMHSAS-contracted and operated facilities which have that level of care and contract source.

All Substance Abuse Contract Sources (PPMR): Includes the following contract source codes: 02, 03, 17, 20, 21, 22, 23, 27, 29, 41, 44, 49, 54, 61 and 70. These contract sources are included in the Substance Abuse Provider Performance Management Report.

All Contract Sources: All contract sources which this agency reports.

Notes:

Data for this report are only updated by ODMHSAS staff at intervals. If the "Data Last Updated on:" is more than two weeks past, please contact Mark A. Reynolds at mreynolds@odmhsas.org or (405) 522-3824.

Discharge Codes:

Planned

60 - Completed Treatment
61 - Completed Court Treatment
40 - Level of Care Change

Unplanned

62 - Left ACA/90 Days
66 - Broke Rules
67 - AWOL
70 - Discharge Due to Treatment Incompatibility
92 - No service in 180 Days (auto-discharge)

Other

63 - Moved
64 - Transferred to another treatment facility
65 - Incarcerated
68 - Death
69 - Failed to begin Treatment
