Subject: PICIS update 2/11/2013: PA Adjustment Clarification, PA Start Date Backdating, & PA Report

Dear Providers,

As we have begun to receive PA Adjustment requests for Exceptional Case and Behavioral Health Rehabilitation Services for Children Ages 4 & 5, and questions related to the submission of these requests, we have worked to clarify the submission requirements. Please go to the following link for the current submission requirements: <http://www.odmhsas.org/PAAAdjustmentSubmissionRequirements.pdf>. If you have questions about submitting PA Adjustment requests for Rehab for 4 & 5 year olds or Exceptional Case, please contact Jacki Millspaugh at jmillspaugh@odmhsas.org.

To make it easier on providers, instead of only allowing 3 days for backdating on the PA start date, we have agreed to move the limit to 5 days of backdating starting on 2/18/2013. Please remember that the CDC date and the PA start date are not necessarily the same date. The CDC date is when the event occurred, such as an admission. The PA start date is when the treatment plan begins.

A new PA report is available for viewing in PICIS. From the REPORT Menu, click on Authorizations, then look for a report titled "DRAFT - PA Status and Expiration Dates for Open Customers." If you have comments, corrections or suggestions, you may direct those to Marsha Boling at mboling@odmhsas.org.

Sincerely,

Mark A. Reynolds, Ed.D.
Director of Decision Support Services
