

Dear provider,

A report is available in PICIS under financial reports called "Reprocessed Claims." Any service billed to TXIX or ODMHSAS is subject to post payment review. The claims identified in the report were found, after review, to not be in accordance with policy. OHCA will reprocess claims identified by post payment review once a month. The report identifies the claims after the claims have already been voided.

Since the process is ran monthly, it is helpful to just run this report by calendar month. It is grouped by rendering provider to make it easier for providers to identify which staff the services were provided under. Also, each service is marked with a reason code that corresponds with what policy/rule was violated. The codes are identified in the report.

If you have any questions please feel free to contact me.

Sincerely,  
David Melton  
Data Analyst  
ODMHSAS
