

Dear Providers,

The diagnostic code set will change from ICD-9 to ICD-10.

Here is how it will effect prior authorization (PA) submissions:

1. For PAs submitted with a start date of 10/1/2015 or greater, we will only accept diagnosis from the ICD-10 code set.
2. For PAs submitted with a start date of less than 10/1/2015, we will only accept diagnosis from the ICD-9 code set.
3. If a PA is submitted with a start date of less than 10/1/2015, you will NOT have to update the diagnosis to ICD-10, until the next PA request.

For claims submission, please refer to the OHCA notification:

<http://okhca.org/providers.aspx?id=13940&terms=ICD-10>

For more information about ICD-10, please refer to the CMS website:

<https://www.cms.gov/Medicare/Coding/ICD10/index.html?redirect=/ICD10>

Sincerely,

Mark A. Reynolds, Ed.D.

Director of Decision Support Services

Oklahoma Department of Mental Health and Substance Abuse Services
